

## **Intellectual Property Rights (IPR) Cell**

The Intellectual Property refers to various distinct types of creation of the mind, inventions, literary & artistic works and symbols, names, images and designs used in commerce, for which a set of exclusive rights like copyrights, trademarks, patents, industrial design rights and trade secrets are recognized under the corresponding fields of law. The CDGIMS has established Intellectual Property Rights Cell on 12<sup>th</sup> January, 2017.

### **Objectives**

The objectives of IPR cell are as follows

1. to create awareness among students, faculty members, research scholars, entrepreneurs and organisations about IPR.
2. to establish an ecosystem for providing various advisory services regarding IP and its protection.

### **Activities to be undertaken by IPR Cell**

The activities to be undertaken by IPR Cell as follows

1. to organise expert lectures and training programs for spreading awareness about IPR.
2. to organize seminars related IP and its protection.
3. to guide students, staff, research scholars, entrepreneurs regarding legal formalities for protection of Intellectual Property.

### **Association**

the institute may explore possibility of establishing linkages with IPR support agencies for strengthening activities of IPR cell.

### **Responsibility**

The responsibility of IPR Cell at CDGIMS will be looked after by Dr. Atul Kapdi , Prof. Rashmi Mate, Prof. Ramanand Chivate & Prof. Devayani Kulkarni.
